

Robotic Cleaning

Robots are used for home entertainment. There are several home robot kits that people buy. Some kits make the robot follow a line or trace a line. These robots have light sensors and switch sensors. There are some robots that do house cleaning such as vacuum the floor or serve other people. Pet robots mimic actual pets which provide people with entertainment. These pet robots can bark, roll-over, sit, and play with you. Robots had a 5 star rating. Customers say it's simply amazing.

Tools that Robots use to clean.

Tools used to clean :

- *Windex cartridge.
- *Wipes
