EMERGENCY EVACUATION OR "GO HOME" DRILL

Dear Parent/Guardian:

"GO HOME" drills, QUICK DISMISSAL and other unusual emergencies create a need for a plan for the orderly evacuation of a building.

For the safety of everyone, we are asking for the cooperation of parents and all concerned that in the event of a "GO HOME" drill, or an EMERGENCY EVACUATION of a school building, students are to be instructed by their parents of an alternate place to go in the event that no one is at home.

If your child is not dismissed to home, then please list the location and the responsible adult's name on the bottom portion of this notice and return it to your child's teacher as soon as possible.

Sincerely,

Mrs. Loida Lewinter

Dental Health Certificate- Optional

Parent/Guardian: New York State law (Chapter 281) permits schools to request a dental examination in the following grades: school entry, K, 2, 4, 7, & 10. Your child may have a dental check-up during this school year to assess his/her fitness to attend school. Please complete Section 1 and take the form to your dentist for an assessment. If your child had a dental check-up before he/she started the school, ask your dentist to fill out Section 2. Return the completed form to the school's medical director or school nurse as soon as possible.

Section 1. To be completed by Parent or Guardian (Please Print)

Child's Name			Last	First	Middle

Have you noticed any problem in the mouth that interferes with your child's ability to chew, speak or focus on school activities? Yes No

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination with x-rays if necessary to maintain good oral health.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

The designation of not in fit condition of dental health to permit attendance at the public school does not preclude the student from attending school.

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
(ACCEPTABLE USE POLICY)**

The Board of Education will provide access to various computerized information resources through the District's computer system ("DCS" hereafter) consisting of software, hardware, computer networks and electronic communications systems. This may include access to electronic mail, "on-line services" and the "Internet." It may include the opportunity for some students to have independent access to the DCS from their home or other remote locations. All use of the DCS, including independent use off school premises, shall be subject to this policy and accompanying regulations. Further, all such use must be in support of education and/or research and consistent with the goals and purposes of the School District.

Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices

The policy is intended to establish general guidelines for acceptable student use of the DCS and also to give students and parents/guardians notice that student use of the DCS will provide student access to external computer networks not controlled by the School District. The district cannot screen or review all of the available content or materials on these external computer networks. Thus some of the available content or materials on these external networks may be deemed unsuitable for student use or access by parents/guardians.

Despite the existence of District policy, regulations and guidelines, it is virtually impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access such content or material from their home, other locations off school premises and/or with a student's own personal technology or electronic device on school grounds or at school events. Parents and guardians must be willing to establish boundaries and standards for the appropriate and acceptable use of technology and communicate these boundaries and standards to their children. The appropriate/acceptable use standards outlined in this policy apply to student use of technology via the DCS or any other electronic media or communications, including by means of a student's own personal technology or electronic device on school grounds or at school events.

Standards of Acceptable Use

Generally, the same standards of acceptable student conduct which apply to any school activity shall apply to use of the DCS. This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate student conduct and use as well as proscribed behavior.

The following types of conduct are not permitted:

- a) Using another's password/account and/or sharing a password/account
- b) Sending or displaying offensive messages or pictures
- c) Using obscene language
- d) Harassing, insulting or attacking others
- e) Damaging computers, computer system or networks
- f) Violating copyright laws
- g) Trespassing in another's folder, work or files
- h) Intentionally wasting limited resources
- i) Employing the network for commercial purposes

This is not intended to be comprehensive, but to illustrate the expectations set for the by the District.

District students shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and student rights of privacy created by federal and state law.

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
(ACCEPTABLE USE POLICY) (Cont'd.)**

Students who engage in unacceptable use may lose access to the DCS in accordance with applicable due process procedures, and may be subject to further discipline under the District's school conduct and discipline policy and the District Code of Conduct. The District reserves the right to pursue legal action against a student who willfully, maliciously or unlawfully damages or destroys property of the District. Further, the District may bring suit in civil court against the parents/guardians of any student who willfully, maliciously or unlawfully damages or destroys District property pursuant to General Obligations Law Section 3-112.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be School District property subject to control and inspection. The District Network Administrator may access all such files and communications without prior notice to ensure system integrity and that users are complying with the requirements of this policy and accompanying regulations. Students should **NOT** expect that information stored on the DCS will be private.

Notification/Authorization

The District's Acceptable Use Policy and Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and students' obligations when accessing the DCS.

Regulations will be established as necessary to implement the terms of this policy.

SUBJECT: USE OF SOCIAL MEDIA POLICY

The Board of Education of the Watervliet City School District recognizes the importance of District employees, students and parents engaging, collaborating, learning, and sharing in digital environments. To this aim, the Watervliet City School District has developed the following policy to provide direction for District employees, students and parents when participating in online school-based social media activities.

The Watervliet City School District "Use of Social Media" policy encourages employees and students to participate in the use of social computing for school-based learning and strives to create an atmosphere of trust and individual accountability, keeping in mind that information produced by the Watervliet City School District teachers and students is a reflection of the entire District and is subject to the District's Acceptable Use Policy. By accessing, creating or contributing to any Web 2.0 (blogs, wikis, podcasts, sites using digital or video imaging or other social media) for classroom or District use, all employees and students are required to abide by these guidelines.

Therefore, the Board of Education will direct the Superintendent of Schools to establish appropriate guidelines that will be used as a model for all employees and students, parents and community members in using the social media sites that may affect our students and the School District.

This policy will be revisited every year in approving the School District's *Code of Conduct on School Property* in order to ensure the compliance of this policy or changes that may be necessitated by advancements in digital media.
